

Distributions Locations of Critical PPE for the Agriculture Sector

Governor Kate Brown has directed approximately 1 million KN95 masks and 5,000 gallons of hand sanitizer for farmworkers and agricultural producers. This critical PPE is available at no cost to the agricultural community to mitigate the spread of COVID-19. Limited supplies will be provided at each site until supplies are fully distributed. The Governor is proud to have the collaboration between Oregon Department of Agricultural, Oregon State University Extension, Oregon Emergency Management, Oregon National Guard, and county partners.
